

Cutters

LI YAO offers a line of cable cutting tools designed to cut cables ranging in sizes from small O.D. to 2 inches in diameter. The cutters are made by hardened carbon steel and manufactured with precise CNC grinding machine cutting edges for clean and undistorted cuts. Furthermore, we also offered a cable tie installation tool which speeds up cable installation time.

This tool is designed to ensure correct tension and provides automatic cut-off the cable ties.

LY 1160

Telephone Flat Cable Line Cord Stripper

- Multi-function tool cuts and strips flat telephone cable for RJ-11 and RJ-48 modular plugs.
- Built-in stripping guide provides correct strip lengths.

LY 2022C-1

Wire stripper and Cutter

- Hardened carbon steel with black oxide finish. Pivot joints have hardened steel bushings. Softer plastic anti-slip cushioned grip. Precision ground blades for consistent stripping and cutting. Adjustable settings.
- For #10 ~ #24 AWG solid or stranded wire compact 5" tool adjusts quickly to any of eight different wire sizes.

LY 2028CA

Wire Cutter

- Cutter only with hardened carbon steel blades and black oxide finish. Return spring. Pivot joints have hardened steel bushings. Soft anti-slip cushioned grip. Precise CNC ground fabricated blades.
- For stranded cable up to 13 mm and solid wire 4 mm.

LY 2052

Center Conductor Cutter

- Trims coax center conductor to 3/16" length for proper installation into a dual crimp coax connector.

Cutters

LY 2056

Round Cable and Wire Cutter

- Round cable and wire cutter cuts coaxial cable up to RG-9U, multi-conductor cable up to 0.5" (12.7mm) and solid or stranded wire up to #8 AWG. It has a built-in return spring, locking latch and soft handles for a comfortable grip. The frame is made of stamped, hardened steel with curved cutting blades.

LY 2056A

100 Pair Group Cutter

- The 100 pair group cutter is rated for up to 2/0 cable, 100 pair group telephone cable and RG-174 / RG-9 coax cable sizes. It has a built-in return spring, plastic molded handles and a safety lock to keep the tool blades closed and pouch ready.

LY 2056B

Compact and lightweight for extra convenience and easy storage. The frame is made of stamped, hardened steel with curved cutting blades. Safety locks to keep the tool blades closed and pouch ready.

LY 2056C

Round cable and wire cutter cuts coaxial cable up to RG-9U, multi-conductor cable up to 0.5" (12.7mm) and solid or stranded wire up to #8 AWG. It has a built-in return spring, locking latch and soft handles for a comfortable grip. The Frame is made of stamped, hardened steel with curved cutting blades.

Cutters

LY 2061

Ratchet Cable Cutter

Heavy duty ratchet cable shear suitable for cutting cable up to 750 MCM (300mm²) and smaller hard-drawn copper and aluminum cables. Quick release lock on handle. Special hardened steel blades for longer life, Unique 5-tooth ratchet design ensures a non-slip cut. High-leverage boot increases cutting power on tough jobs, quick release mechanism simplifies blade back out. Handles lock together to simplify pouch storage and comfort grips. Not suitable for cutting solid bar or cable with steel cores, wire and rope.

LY 2062

- Special hardened steel blades for longer life, unique ratchet mechanism design ensures a non-slip cut.
- For copper and aluminum cables.
Specification: Al / Cu Ø max. 32 mm
/ Cu : max 150 mm² / Al : max 240 mm²
- Locking blade with blade release allows blade to be opened in mid-cut.
- Not suitable for cutting solid bar or cable with steel cores, wire and rope.

LY 2073

Ratneting Cable Cutter

- Telecutter for up to 2,700 pair
